## ASSEMBLY ROOMS FOR LIMERICK.

A meeting of the committee in support of the project for providing an Assembly Rooms for Limerick, was held to-day in the Chamber of Commerce. It was decided to invite the public of the city and county to assist in forwarding the undertaking. The committee consider that a capital of £2,500 would be necessary, this sum to be subscribed in shares of £1 each. Persons wishing to join in a small or large way will please send their names to Mr J O'G Delmege. Hon See, before the 15th December. The want of an Assembly Rooms in Limerick is perfectly obvious to all sections of the community; more especially when it is pointed out that the Athenseum will not henceforward be available for balls or social entertainments. The new venture should, therefore, be warmly taken up, and there ts no reason why it should not be immediately carried out to a successful issue.
