THREATENING A COLLECTOR.

Mr David Cahill, cottage rent collector, complained that while on his business, collecting, owing to have arrears reduced as far as possible by the end of the year, a man named Daniel Connell, who works on the roads for Mr Hishon, abused him and he thought he would strike him. He also preferred a complaint against another man.

Mr Hurley said they should protect their officers. The guardians would put no obstacle in the way of protecting himself, but Connell's book would be a great way to bear out the statements he made to the Board.

It was understood the collector would summon the parties.

FEVER OUTBREAK ROUND FEENAGH.

There were 5 cases of typhoid fever reported since last board meeting from the townlands of Bohard, Cloucrippa, Gurteen, and Highmount, all in the Feenagh dispensary district. There were 8 cases in all in the hospital, and one death since this outbreak 3 weeks ago.

DISEASE IN CALVES.

Mr Cremin asked what steps were taken with regard to calf disease. Some time ago Mr O'Brien wanted the information.

Mr Hurley said farmers suffer heavily through death of their calves, and it would be most important that those gentlemen who are at the head of the Veterinary Department would try to discover a remedy, and they should give them all the assistance in their power.

Mr Sheehy said if they wanted to do things right they should hold meetings in the various towns, and obtain full information from the farmers who undoubtedly suffer largely in most districts. This, he said, would lead to some useful and practical conclusion.

Mr Hurley said yes, and the information procured could be forwarded to the Privy Council.

Mr Cremin said he should like to know what has been done. What sanitary steps were taken.

Mr Hurley said on 25th May last the Veterinary Department wrote about sheep scab, but they had none in the Union, and he thought if the Privy Council exercised the scientific knowledge of the veterinary gentlemen under their control they should be able to discover some means of successfully combatting the disease in calves which caused such serious loss to the farmers in this district. He proposed a resolution which was unanimously passed and duly sent to the proper department, but not one word of reply had

second outrage in the province within a week has naturally caused very great indignation in hunting circles. This feeling will be widely shared even by persons who are in no way identified with the chase. We are slow to think (writes the Constitution) that these malicious acts will meet the approval or sympathy of any persons in the community, and least of all, the farmers of the districts, hunted by these popular clubs.

THE NEW VICEROY OF INDIA.

Lord Curzon will be the eleventh Viceroy of our greatest and most important dependency. In 1858 India was handed over to the Crown, and since then England has been represented by the following ten Governor-Generals:—Earl Canning, the eighth Earl of Elgin, Lord Lawrence, the Earl of Mayo, the Earl of Northbrook, the Earl of Lytton, the Marquess of Ripon, the Marquess of Dufferin, the Marquess of Lansdowne, and the retiring Viceroy, the ninth Earl of Elgin. Of these ten Viceroys, five are still alive, two died in India, while the remains of two rest in Westminster Abbey. Besides these ten Viceroys Lord Napier of Magdala, Lieutenant-General Sir William Denison, Mr John Strachey, and Lord Napier and Ettrick were each for a short period appointed acting Governor-General.

Announcements of Births, Marriages and Deaths not exceeding 5 lines (which must in all cases be duly authenticated), are charged 2s 6d each. For every additional line 8d.
