SAD FATALITY AT BOHER.

A sad occurrence is reported from Boher. It seems that a young man named David Meade, aged 26, an employee at the milk factory there, was engaged in loading a donkey cart, on which were some tankards of milk, when he overbalanced himself and fell to the ground. He received serious injuries to the chest and spine, and was removed home to the residence of his father, who is the stationmaster at Boher, and was attended by Dr Connolly, of Cahircornish. However, notwithstanding all that medical skill could do, it could not avert a fatal termination, which took place on Saturday. The deceased was a very popular young man, and great sympathy is felt with his family in their affliction.
