STEEPLECHASING.

INTERESTING REMINISCENCE.

An "Old Timer" writes: "DEAR SIR,—In reading the interesting article on Steeplechasing, in the *Chronicle* of 15th inst., I was surprised to find that in the part headed 'Famous Horses and Riders' there was no mention of John Preston's famous mare, Brunette, and her rider, Allam McDonagh, who won the Grand National three times. Brunette had never been raced on the flat, and had been regularly hunted for many years by her owner, who was a heavy weight. She was said to be 13 years of age when she won the Grand National for the third time. I think there must be several old-timers in Limerick who remember seeing Allam McDonough's performances on the old Newcastle course, and his short, quick step and slight limp were well known in the streets of Limerick. Brunette and he were really attached to each other, she would follow him like a dog, and he never struck her in her life, nor did her owner. Another remarkable horse which I was surprised to see omitted from an article of the kind in a Limerick paper was the Lamb, who much more recently won the G and National three times, and who was bred in the county, as was her dam, Erin's Pride, by Barry's Arthur. In the old steeplechase the riders did not make a bee line for the steeple close to which the winning post was placed. They took any line they liked, so as to utilise their knowledge of the ground and their horses capabilities.

DEATH OF MR. THOMAS KELLY.

We regret to announce the death of Mr. Thomas Kelly, which took place at his residence, 5, Mount Vincent Cottages, yesterday. Mr. Kelly belonged to an old and highly respectable Limerick family, and was held in much esteem by all who knew him. He was for many years Governor of Limerick City Prison, and retired when the present arrangement was made, by which the City Prison became the Female Prison for City and County. He had reached a good age, and although his health for some time past had not been robust, the news that he had passed away yesterday was somewhat of a surprise to his friends. The deepest sympathy is felt for his widow, whose devoted care of Mr. Kelly in his declining years is beyond all praise.

The remains were removed this evening to St. Michael's Roman Catholic Church, from which the funeral will take place to St. Lawrence's Cemetery to-morrow.

EMIGRATION AND CONSUMPTION.

According to the returns obtained by the Royal Irish Constabulary and the Metropolitan Police, who acted as enumerators at the several Irish sea-ports, the number of emigrants who left Ireland during the quarter ended 30th September, last, was 11,469 (4,962 males and 6,507 females), being 1,315 more than in the corresponding quarter of the year 1901 and 932 over the average number for the third quarter of the ten years 1892-1902. The Registrar General has the following remarkable note in his Quarterly Health return:—As affecting the public health of this district, I wish to point out that the return of young people (who had emigrated to America) suffering from tubercular disease of lungs must necessarily tend to the spread of the disease at home. Phthisis is acquired mostly by those emigrants who have been in domestic service (girls), though no family predisposition to the disease at home can be noted as a causative factor of phthisis. Possibly this also occurs in other districts.

work display proceeding, a well-dressed young man rushed out of the Casino rooms into the gardens and blew his brains out.

At the Old Bailey yesterday, William Bailey, 33, ex-trooper Royal Horse Guards, was sentenced to four years' penal servitude for bigamously marrying Helen Car Byrne, at Windsor Prisoner, whose wife and two children were said to be in the workhouse, subsequently deserted Byrne.

The report of the Director of the Mint at Washington on the world's output of precious metals shows 12,740,746 ounces fine of gold, at value of 263,374,700 dollars; of silver, 174,998,573 ounces fine, at coinage value of 226,260,700 dollars, and commercial value of 104,999,100 dollars.

At Northampton yesterday an inquest was held on John H. Hill, aged 10. With other boys deceased spent some time at the races on Thursday afternoon in drinking from partly emptied jugs and glasses standing on counters at refreshment booths, and were subsequently found asleep on the racecourse. Hill was taken home in a helpless state. He had fits, and died from alcoholic poisoning on Friday. A verdict to that effect was returned.
