not pack her butter properly, is to be gull the greatest possible cruelty to our country to all interested in her industry.

Ruskin truly says in his preface to *Sesam Lillies*, "If there is any one point which thousand years of thinking about right and wise and good men have agreed upon, or sively by experience discovered, it is that Gd likes idle and cruel people more than others."

Therefore do not tolerate idleness, nor be of the cruelty of encouraging it. Trusting 1902 will prove a much better season for the producers than did 1901, and hoping the farmers have learnt the lessons taught by which are that only those who had cows ca about September really got any fair profit t milch cattle, and that no other class of cattle at all for their keep excepting milch cattle,
 I remain, yours truly,
