Writing on 17th, 1902, Mr. Barber says: "What has been my trouble I don't know, but it has an uncomfortable feeling after eating, I became irritable and wretched. Not long was followed by a pain at my chest on the shoulders. After eating, however real, I became tired, and was generally unwell. Constipation became habitual to my tongue was dry and coated. Many medicines I tried, but I should have known if I had kept my money, for the pain increased daily. From very fear, I abstained from eating anything. After spending many pounds on various medicines, one lucky day my wife's mother gave me a half-full of Mother Seigel's Curative derived so much benefit from it that I went upon a thorough course. Mine was a case, and I took, in all, a good many at in the end Mother Seigel's Curative completely cured me, and the more people the fact the better." where he was engaged for some years in mercantile pursuits. He left Manchester and came back to Limerick, where he engaged in some business, at which he was unsuccessful. He again went to London, where his brother was lessee of the St. James's Theatre. Under the theatrical name of C. W. Fulton he joined the stage. Both in London and Paris he was engaged for some time at the theatrical profession. This, however, proved a failure, and in 1872 he returned to Manchester, and joined the 51st Light Infantry as a private, going with that regiment to India, where he remained until 1885, when he was discharged from the Army at his own request. During his regimental career he edited a regimental paper called the *Bugle*, and after his discharge from the Army he left for Australia, where for four years he continued at Press work, having been engaged on the *Sydney Evening News* and other papers. Between 1889 and his present visit to Ireland he had been engaged as tutor in several squatters' families throughout Australia. The applicant was identified by a Mr. Edward Pilson, now living in this country, who made his acquaintance in Press circles in Australia. He was also identified by Rev. Matthew Russell, S.J., brother of the late Lord Russell of Killowen, who stated he remembered the applicant a boy at the schools in Limerick between 1859 and 1863.

Mr. Edward Ryan, brother of the applicant, stated he had not seen the applicant for many years. He now identified him as his brother. He was satisfied that the money in Court should be paid to him.

Mr. Joseph Ryan, the applicant, in answer to the Master of the Rolls, deposed to the facts mentioned by his counsel, and the circumstances under which he changed his name.

Mr. D. J. O'Brien (instructed by Messrs. J. Gleeson and Son), for Mr. W. J. Gleeson, the administrator, said Mr. Gleeson was satisfied that the applicant had established his identity as brother of the deceased.

The Master of the Rolls said he was perfectly satisfied the applicant had made out his case. He directed the money in Court to be paid out to him, less the costs of the administrator's appearance, as agreed between the parties.

## IRISH RAILWAY RATES.

In the House of Commons,

Mr. O'Shaughnessy asked the Chief Secretary to the Lord Lieutenant of Ireland whether he will cause an enquiry to be held into the matter of railway rates for goods, coal, and agricultural produce conveyed from one part of Ireland to another, and further into the rates charged on articles exported from Ireland to different parts of Great Britain, and goods imported from the latter, in order that the same may be arranged on an equitable basis.

Mr. Atkinson—My right hon. friend has recently stated, in answer to a similar question, that he is not present prepared to recommend an inquiry of the character mentioned.
