ELLER'S NOTE.

m delighted to be of use to correspondents, but
must say the questions this week have de-
anded a lot of "looking up," and to answer all
ould require more space than can be spared. I
hink for the future I will try to indicate the
uestion in the answer. Will correspondents
ord their questions so that this may be done,
nd forgive me if they do not get an answer the
ame week? This week several most interesting
queries are unanswered, but they will be, next
week, if I have to burn all the midnight oil there
s in the city.

required, and then returning them as being
lly unsuitable, met with a reverse in Paris
ng the week which the culprit is not likely to
st. Having acquired a cloak priced at 1,200
cs, which she wore at the races at Saint-
n, she returned it the next day, neatly packed
s original box, as being badly made and unfit
er to wear. The long suffering milliner, not
ing to offend a customer, returned her the
e of it, but scarcely was she out of the shop
she returned in a hurry, having remembered
her purse, with 5,000 francs, was in one of
pockets. As she had previously stoutly
ained that one look at the cloak had decided
and that she had not so much as put it on,
milliner declared that it was quite impos-
sible could have left her purse in it, and insisted
she could only have the mantle again by
ing for it. An unfeeling police magistrate to
m she applied for advice told her he could not
her, and that a law-suit was her only remedy.
he end she gave way, took the cloak, and paid
1,200 francs.
