

neutral ground, and then Limerick gradually worked the ball into Garryowen ground, but Quinlan averted danger by a long kick. Guinane saved a rush of Garryowen forwards, and Carroll kicked into touch at half-way. Skehan was conspicuous by a smart run into County territory, but Wallace and Guinane were equal to the occasion, and half-time left the play in mid-field, the score being—

Limerick County ... 1 try
Garryowen ... Nil

Garryowen was playing a man short for half the period, when Spain took his place at three-quarters. Higgins re-started, and Garryowen at once became aggressive. The play was brought up under the County goal, where a scrumage took place. The ball went to Clancy, who tried to drop a goal, but the leather rebounded from the post, and after scrummaging County touched down. A vigorous attack by Garryowen was successfully resisted, and a loose rush by County forwards up to their opponents twenty-five was cleverly stopped by Spain. Again Garryowen came with a rush led by Higgins, and for some minutes the County lines were threatened. The County were awarded a free, but no material advantage resulted. Fast play followed within the County twenty-five area, and Higgins picking up man to the corner and claimed a try, but the touch judge hoisted his flag and the ball was thrown in, and carried over the line with Dineen in possession. A try was very fairly allowed, but Higgins failed to improve the score. Play for the remaining time was pretty even, and no further scoring having taken place, the game ended in a draw, leaving the score—

Garryowen ... 1 try (3 points)
Limerick County ... 1 try (3 points)
