

Mr. Twyford was progressing as well as he could. So far as he was it was three wrecks he would have instead of one.

That part of the river is safely Barrington's Hospital is quite secure. One of the tenders is for £250.

Would you not ask the Japanese what would they take for removing the 'ord' hulk? They would be the most likely to do it.

They thought the Board should accept for £30. He did not see why they should accommodate them with lighters.

They said one of the Harbour lighters got aground while at the wreck. Mellan said it was a very bad state of affairs as the citizens were concerned.

If he had anything to say to it he would be present at each side of it and have it cut out. It was ridiculous to say there was so much of the part of the people who were some brains. If it was at Kamsatcha it would be removed long ago. He proposed Mr. Moroney be instructed to have it done.

Hear, hear. I second you. The first thing to be done is to get men to take it up.

Mellan—Cannot you advertise for men for such work except we go to either Harrison or Russell's. I tell you the engineer won't displace it at less than £100.

Would it not be better, even if losing £100, to remove it and leave the wreck now lying in the water for a year and eight months.

And if prompt action is not taken it will be here for three years. A position was agreed to.

OVERDRAFT GRANTED.
It was read from the Bank of Ireland that the Board have an overdraft of £100,000 at 4 per cent. The communication was referred to the Finance Committee.

ELECTRICAL PLANS.
It was agreed on the application of Mr. Conyers of the Limerick Steamship Company, to supply information of his directors a copy of the plans of electric lighting to be utilized at the docks and quays.

HOUR OF MEETING.
The inconvenience of the present hour of meeting was given by Mr. Conyers to the old day and hour of meeting, 2 o'clock on Mondays.

PROPOSED TESTIMONIAL TO DR. FOGARTY.
