LAND SALE IN LIMERICK.

Mr. Landon asked the Chief Secretary whether he can say how the estate of the representatives of the late Michael Marshall Lloyd Apjohn, in and around Pallasgreen, Co. Limerick, stands as regards sale to the tenants on it, and what progress has been made in that direction since last August?

Mr. Wyndham—The draft rental has now been finally settled, and on Thursday last the Land Judge authorized the receiver to negotiate with the tenants for the sale to them of their holdings.

LIVE STOCK CARRYING.

Mr. William Field asked the President of the Board of Trade whether he will make inquiry into the terms of through consignment notes for the transit of live stock from Ireland to Great Britain, and whether he is aware that consignees are compelled to sign a contract releasing the carrying companies from the safeguarding provisions of the Carriers Act?

Mr. Baifour feared he could not add anything to the replies he has from time to time given to the member for Dublin. The Minister stated that he is not aware that carrying companies in Ireland compelled to have an other power to compel consignees of live stock to sign contracts relieving the companies of liability, and he thinks a general inquiry into the terms of consignment notes does not appear to be necessary.

PRIMARY EDUCATION.

Mr. Flynn asked the Chief Secretary, in reference to the Development Fund Act, whether his undertaking, given last session, that all National Schools maintaining an average daily attendance will be entitled to the services of an assistant teacher, will be carried into effect at an early date, and whether, in view of the fact that the Commissioners of National Education have frequently made representations to this effect, he will induce the Treasury to take steps to have this reform carried out with the least possible delay?

Mr. Wyndham—I promised to give this matter my earnest and favourable attention, but it must be considered in relation to all the features of primary education, and to the charges which cannot at present be determined, that may fall on the development grants in connection with the flotation of stock.

Mr. Flynn—Can the right hon. gentleman say when he is likely to be in a position to give the Irish members of the House general information with regard to the development grant?

Mr. Wyndham—I should be glad to do so in this House or out of it. £24,000 a year is the amount.

THE MASSY POWER ESTATES.

The following letter appears in the "Nenagh Guardian":—

Monroe, Nenagh, 16th February.

SIR—To prevent the circulation of further erroneous reports as to the sale of my estates will you kindly insert the following: "I, on Monday, the 15th inst., concluded the sale of my Ballyea and Inchmore estate, near Killaloe, thirty tenants, all first term judicial rents, for twenty years purchase of same, Dr. Kearney, solr., Limerick, acting on my behalf, and Mr. R. X. M. Gleeson, solr., Nenagh, for the tenants."

THE RALLI DIVORCE CASE.

(BY TELEGRAPH)

Some time ago a Mr. Demetrius Sophocles Constantinidi obtained a decree nisi on the ground of the adultery of Mrs. Julia De Constantinidi, nee Ralli, who had obtained a divorce in America, and had contracted a bigamous marriage with Mr. Henry Lauce who was a medical man, the jury assessing damages against co respondent at £25,000. Respondent and co-respondent appealed in Court of Appeal to-day. Counsel for the lady said she should not resist the English decree, and both appeals were dismissed.

Russian theatre managers have been privately instructed by the police to replace all foreign adaptations running on their boards by "patriotic dramas," to keep alive public enthusiasm.
