LIKE CAESAR'S WIFE.

At the Newcastle West Quarter Sessions on Tuesday, in the case of *Quin v. Quin*,

Mr. Gaffney, for plaintiff (Widow Quin), stated that plaintiff and defendant held a farm at Glen-sharrod jointly, and another farm of 16 acres, one half to each, and a third—the White Meadow—farmed by plaintiff, defendant, and a nephew, James Quin, but no party to this suit. He asked his Honor to do one of two things—to partition the farms or have a sale. They had Mr. Hosford, the agent, there, and if his Honor appointed some engineer of position, who knew nothing of the cases, he could carry out the partition arrangement, and he would suggest Mr. Horan, the County Surveyor.

His Honor—Yes, he's like Caesar's wife.

Mr. P. E. O'Donnell, for defendant (James Quin) said that from the nature of the place he feared there would be a physical impossibility to partition the farms. Mr. Hosford promised to put up a new house for the widow.

His Honor said they were tenants in common, and when they came before him with that request he must order the partition, unless it were physically impossible, and in that case he would proceed to sell. All the parties were there, and this certainly was the proper course, for they never could live in peace. His Honor asked if the widow intended getting married (laughter).

Mrs. Quin said yes, when the place was divided.

His Honor—Be it so (laughter).
