FIRE!

Perhaps at this season of the year, when all our local shops and stores are full almost to overcrowding with Christmas supplies, and brilliantly illuminated, it might not be out of place to refer to Mr. Wylde's advertisement in another column with reference to the best means of guarding against fire. Mr. Wylde has had considerable experience in London, Southampton, and Limerick, in the different fire brigades, and we are quite sure that the owners of property, householders, shopkeepers, etc., could not do better than seek his advice on the best preventative to guard against the dreaded danger of fire. Mr. Wylde, 51 Henry street, is agent for the May-Oatway Fire Alarm, a system which it would be hard, if not impossible, to beat.
