...y Telegraph To-day.) or Kent which was driven ashore on Back sandbank during yesterday's ted between 9 and 10 this morning. aged.

ILLNESS OF THE KING.

(By Telegraph To-day.)

The "Globe" states that the King is suffering from a slight cold, and that the Prince of Wales will take his place at to-day's Levee.

The Press Association is authorised to say that the King is remaining at Buckingham Palace owing to a very slight cold, his decision not to attend to-day's Levee being merely a precaution. As showing that his Majesty's condition gives no cause for alarm it may be stated he to-day received Lord Lansdowne, and the Chinese and Brazilian Ministers.

DEATH OF JUDGE ADAMS'S MOTHER.

The sincerest sympathy of all citizens of Limerick will go out to Judge Adams, who on Tuesday afternoon sustained a bereavement, not only of his venerable and venerated mother who resided at Cork. Mrs. Adams during her long life closely identified herself in every charitable movement and effort to advance in every way the comfort and happiness of those needing kindly aid. At the fine old age of 91 she has passed to her eternal reward, but her memory will be long cherished and venerated, and her loss will be keenly felt by many, who for so many years enjoyed the blessings of her benevolence. She will be missed by many mourning friends, who, with us, will tender to our learned and respected judge the sincerest sympathy on the loss he has sustained in the death of her who was never the best of mothers, and the truest of friends to all who enjoyed the pleasure of her acquaintance.
