\* We regret to have to record a very sad accident attended with fatal results which occurred at Ballybunion, County Kerry, on Saturday. It would appear that Master Patrick L. Dundon, son of Mr. John Dundon, solicitor, Limerick, whose family have been staying for some weeks past at this watering place, fell off the cliff, and received such injuries as resulted in his death on Saturday night. The deceased, who was fifteen years of age, was, it appears, alone at the time of the accident, and was picked up some time later. He was a bright and promising boy, and great sympathy is expressed in Limerick and elsewhere with Mr. and Mrs. Dundon in their sorrow. The funeral took place this afternoon at the family burial place, Clounana, Co. Limerick.

Whether he became dizzy or lost his footing is not known, but he fell from the window to the ground. Assistance was rendered, and the young fellow was removed to the Blarney Railway Terminus in a collapsed condition. Dr. Nunan and a clergyman were sent for and after attending to the injured lad, he was conveyed to the city by tram.

Without any notice he is alleged to have pulled from one of his pockets a pistol and threatened to do for Sullivan if he did not give him work.
