LABOURERS CONDEMN "GUINNESS."

labourers of Kilrush have joined a Protective tion, and at their first meeting on Wednesday they protested against the action of Messrs ss in depriving a local firm of the cask ng agency, which has thrown a large number out of permanent employment. Is it to be red a good sign when labourers condemn ness."

POOR KILRUSH.

ng the hearing of a valuation appeal case at a Quarter Sessions, Judge Carton remarked ey could not say Kilrush was improving. If w the number of people whom he had to knock he Revision Sessions three weeks ago because ould not pay their rates, they would see that n was not in a flourishing condition.

WHIFFS OF PRICE.

authority upon the subject credits the hilds with smoking cigars at £25 per d. The weeds are wrapped in gold paper, acked in inlaid cedar wood cabinets, each ing 14,000 cigars. But we have to go out o for the biggest thing done in cigars—and, this may sound strange, it is not to America e look for the story. The last Emperor of the was the hero of the biggest deal of its kind. the recipient of a gift of cigars from Marshal hich cost £30,000. The Marshal had them y manufactured from the finest Havana leaf. as tipped with gold, and stamped, in the same with the Imperial "N." There were 20,000 e precious smokes, and each meant 30s. The was worth the cigars.

Hall, 97 George street, on Tuesdsy next, at 8 p.m. The great chess expert, Mr. Blackburne, of London, is announced to give a blindfold chess display, playing about twenty games with noted local exponents of the science simultaneously: Mr. Blackburne's previous feats last year will be in the recollection of our readers, but that was not a blindfold display, clever as it was. Tues-day's display should appeal to every lover of chess, while the marvellous mind concentration which Mr. Blackburne shows should be interest-ing to every one whether a chess player or not. Such a unique opportunity does not offer once in a lifetime, and as the admission fee, including tea, is only a shilling, the promoters of the dis-play—the Limerick Chess Club and the P. Y. M. A Chess Club—should have a large attendance on Tuesday night.

ROBBERY AT LAHINCH.

A man named Thomas Molloy, and two boys named Pat Carrigg and Frank Conway have been arrested by the Lahinch police on a charge of burglariously entering the Golf Pavilion there; and stealing five sticks valued at £2, and eight balls valued at 10s. The whole place was thoroughly ransacked, there was luckily no money in the locker. Carrigg and Conway, were admitted to bail by Dr. F. Brew J.P., but Molloy was remanded in custody.

DEATH OF MRS. S. B. GOGGIN.

We regret to announce the death of Mrs. Goggin, widow of the late S. B. Goggin, of this city, which took place at her residence, St. Stephen's Villa, North Strand, yesterday after-noon. She had been ailing for the past few months, but it was hoped would soon become convalescent. The news of her premature and unexpected demise nas, therefore, come as a great shock on very many friends who highly esteemed her for her genial, graceful, and unassuming manner. Mrs. Goggin was an old member of the Limerick Field Club, in which she took a great interest, and was also a good authority on curios and antiquarian subjects of one description or other. Deep sympathy is expressed with her son, Rev. S. L. Goggin, and relatives in their bereavement.

The funeral takes place at 9.30 on Monday for St. Munchin's.

RENEWAL OF CITY LICENSE.

At the City Petty Sessions yesterday, Mrs Emma McCarthy, wholesale and retail spirit dealer, William Street, applied to have her excise license certificate renewed.

Mr. Leahy, C.S., opposed the application on the grounds that following two convictions within twelve months the license was forfeited. The applicant was not in possession of a license at the present time, and the convictions were for selling beer from vans throughout the country.

Mr. Gaffney, solr., said the only objections that could legally be made were the character of the applicant and the manner in which the house had been conducted during the year. No objections on these grounds had been raised to the applicant. As to the convictions all had to say was that his Honor Judge Adams had reversed the findings of that court and held that the license was still in existence.

Mr. Hickson, R.M., said as far as he was con- sidered the license had ceased to exist, but having

other defendants at all. Judge that the majority of the mag conviction.
