LABOURERS' COTTAGE

The Cost of Smoking Chim

An interesting discussion, throwing
 light on the labourer's cottage ques-
 tion, place at the Glin District Council, 3
 Fitzgerald presiding, on Wednesday.

A number of tenders were consider-
 ing repairing cottages, putting in stair cas-
 curing smoking chimneys. For the lat-
 tenders ranged from £3 10s to £6, and
 staircases from £1 14s 6d to £2, while
 repairs ranged from £27 to £55.

Mr. Hartigan, engineer, said at Rat
 these contracts are done for £3 a hou-
 three years, equal to £1 a house. He cons-
 the tenders too high.

The Clerk said the repairs to the houses
 cost £177, exclusive of the cost of
 smoking chimneys and erecting staircases

Mr. Ruddle said that in some cases the
 would cost for repair £14 a house. Th

Mr. O'Shaughnessy said in Croom or I
 look Union the Guardians took the co-
 repairing the houses by employing a C
 Works with a staff, and they might hav
 the same.

Mr. Hartigan said that was so.
 Mr. Madigan proposed and Mr.
 seconded that the tenders be not accept-
 that they re-advertise. Carried.
