The summer meeting which came off this afternoon proved very successful and enjoyable, though last evening it was feared that we were "in" for that class of weather with which the Limerick races, unfortunately, have been too often associated. Rain fell very heavily for a couple of hours, but this morning was ushered in bright, though somewhat breezy. There were some showers during the day, but on the whole there was nothing to complain of. There was a large attendance from city and country, Limerick and Clare and adjoining counties being well represented. The programme furnished a good day's sport, and the racing was of a very good description. The six entries that made up the card brought out representative fields, and with the exception of one race the finals were well contested. The arrangements were as usual excellently carried out by the Secretary, Major Kenny, and the other officials. Details:—
