SERIOUS ASSAULT.

At the Police Court to-day, before Mr.
Hickson, R.M., Patrick Lawlor, Carey's Road,
was charged with drunkenness yesterday, and
assaulting a farmer named Patrick Buckley
Janesboro'. His evidence was to the effect that
while driving a donkey and car along Carey's
Road, the prisoner came across and struck him
on the arm with an ash plant. Then he
caught hold of a pitchfork which was in the car
and struck him with it on the side of the face,
and cutting Buckley's straw hat. There was no

Mr. Vaughan—Will the minutes go to
Local Government Board?

Mr. Frost—They will not unless they are as
for. Mr. Price said the money would be a
able in a fortnight.

Mr. O'Shaughnessy asked was there
official document to show that Mr. Price pas
the works?

Mr. Frost answered in the negative.

Mr. Hurley—Is it not the usual practice
have the certificate of the architect before
instalment was given?

Mr. Frost said that was so. Mr. Batch
refused to sign the certificate, his services hav
been dispensed with.

Mr. Piggott—Was he not paid for th
works?

Mr. Frost—Yes. He got £232.

Mr. Coleman—Then Mr. Batchelor should
forced to give his certificate when he has t
paid for his services.

Lord Emly—Mr. Batchelor did not refus
sign the certificate because he was dismissed.
refused to sign it prior to being dismissed.

Mr. O'Meally, engineer, said the amount
the loan was £1,500 and the actual expendi
was £2,000. There was a sum of £805
extras, etc.

Mr. Vaughan moved a resolution bearing
the case, and Mr. Gubbins seconded it.

would not say the resolution contained libel
matter, but it went very near it.

Mr. Coleman—Who added the words to
resolution?

The Chairman—Mr. Vaughan thought it
to put them in the resolution.

Mr. Coleman thought it was the Board and
Mr. Batchelor that should be dismissed.

Mr. O'Shaughnessy—Is there any special d
ment from Mr. Bachelor accepting responsib
for the works?

Mr. Frost said there was not.

Mr. Coleman did not see the necessity of
pointing a second architect.

Mr. Frost said it was the practice of the
Board of Control, but there was no such pr
now with the inspector.

THE ASYLUM—AN OBJECT LESSON.

A report was read from Dr. Courten
Inspector of Asylums, on the condition of
institution. He suggested some improvem
and added that the death rate, 5.6 per cent.,
the lowest of any Asylum in Ireland. Du
his inspection the patients were wonderf
quiet and well-behaved, the Limerick Asy
being an object-lesson in this respect, show
the effects of modern and humane treatment
restraining the violence which in old
characterised insanity. Forty years ago it
reported that in no district in Ireland were
insane so noisy and extravagant in demeanor
those belonging to Limerick, and thirty y
ago, in going through the wards, one could r
pictures of Hogarth—the patients rolling on
ground in rags, shouting, fighting, and attack
all who came near them. Now in no institut
could one see better conduct and more ord
report.

The consideration of the report was defer
for the attendance of the Resident Med
Superintendent.

A PERSONAL BUSINESS.

Mr. O'Meally mentioned that at the last m
ing of the Board serious allegations were m
