FEDERAL BELLS.

ily informed that the work storing the Cathedral bells onday, September, 17th, (the been already made in the will be completed, in at most,

request of Mr. Maegan his case was adjourned for him to get legal aid. The charge against Mr. O'Connor was that he was disqualified from acting as a Rural District Councillor to Listowel District, under Article 12 (4 E), by reason of being concerned in a bargain or contract entered into with the Kerry County Council, in respect of his appointment as Har- bour Master at Tarbert, Co. Kerry, and being in Kerry County Council, acted as Rural District Councillor when disqualified by reason of the office or place of profit aforesaid, as pro- vided by Article 12 (11) of the said Order on

Mr. Moran defended. In the course of a long hearing Mr. Condon argued that the office of Harbour Master was one "of profit," and was really a bargain with the County Council. In fact, Mr. O'Connor had the same rights, powers and authorities as if he were a member of the R.I.C., and could be called Constable T. M. O'Connor (laughter). Mr. Moran—That is not as bad as to be a common informer.

Mr. Condon, continuing, said that from the section he had quoted it was clear that Mr. O'Connor had been appointed to a "work," and it was also a fact that his salary (£20 a year) was payable as a presentment.

Mr. Condon contended, in conclusion, that Mr. O'Connor was not entitled to act as Coun- cillor, having regard to his appointment as Harbour Constable, and that for acting he was liable to a fine not exceeding £20.

Mr. Moran contended that as Mr. O'Connor's appointment was not by "contract," it could not be "work" as defined by the section. After a consultation,

The Chairman announced that the Magis- trates' decision was a very short one—dismissed on the merits.

Mr. Moran applied for and was allowed 20s. costs, and the Magistrates complimented both solicitors on the able manner in which they had conducted the case.

DEATH OF MR. W. W. SLADE.

We very much regret to announce the death of a well known and popular young citizen, Mr. W. W. Slade, which took place this morning at the residence of his father, Mr. M. G. Slade, C.E. the Crescent. He had been in ill health for the past six months or so, but in time it was hoped he would become convalescent, and therefore the sad news of this morning has occasioned widespread regret and sympathy. Mr. Slade took a great interest in manly pastimes, but his name is especially identified with aquatics. He was an old member of the Limerick Boar Club, and with Mr. McNeice of the S.R.C. was for several years past a joint secretary of the Regatta Committee. His gentle, courteous, and unassuming manner made him a general favourite, and, passing away in the prime of life, his death is deeply mourned by a wide circle of friends. We tender to his bereaved family our sincere sympathy.

THE BUTTER STANDARD.

At Cappawhite monthly Petty Sessions, before Mr. H. Turner, R.M.; Surgeon-Major Russell, V.C. Hunt, Patrick Crowe, and Hugh Scott. Sergeant O'Halloren charged Philip Harty, farmer, with having, at Killoomon butter mar- ket, on July 16th, sold a pound of butter which contained 19 per cent of added water, 16 per cent being the standard fixed by the Board of Agriculture.

Evidence was produced showing that the butter was manufactured in the ordinary way, and that no more than the necessary amount of

reason to believe that during the autumn sessi- real assistance would be given by the Gover- ment in carrying the Limited Partnership Bill. The hindrance to the extension of our trade we largely self imposed.

The President stated he had received a lette from the Foreign Secretary announcing that hi Majesty's Charge d'Affaires at Peking had bee informed that Sir Robert Hart had on tw occasions received verbal instructions to continue the administration of the Chinese Maritime Customs.
