## FISHERY BOARD

The monthly meeting of the Limerick Conservators was held to-day. Mr. Lingall, presiding. Other members present: Colonel Massy Westropp, J.P.; Messrs. Delmege, D.L.; F. M. Fitt, solicitor; and G. Glynn.

### NO REDUCTION.

The Department wrote refusing that of Michael O'Keefe to have a fine of costs reduced for illegal fishing at 120th November last.

### NOT YET PRACTICAL.

Concerning the marking of salmon in Shannon and its tributaries, the Department wrote pointing out that the experiment on the subject had not yet reached a stage. When the matter was finally decided the Conservators would receive notification.

### NO HARDSHIP.

The Secretary (Mr. E. H. Pee Hos) in a letter from the Department of Agriculture asking if there was any truth in the rumour contained in the question addressed to the Secretary by Mr. O'Shaughnessy as to whether under a bye-law made some advantage which fishermen labouring in fishing on a reserved part of the river was confined to 6 a.m. and including Saturday and Sunday, and the operation of this law the fishermen were to bring their nets a distance of three miles instead of in their boats when they fish within the time limit.

The Secretary said there was an error in Adare on this subject, and the result thereof.

Mr. Fitt said there was no substance in the complaint about the great weight of the nets, which at most was only a stone weight.

Mr. McInerney—What class of net is it? Mr. Fitt—A snap net. You'd think it of turf they had to carry. It is impossible to draw the attention of the authorities to this regards the fishing, I think it was illegal at this time. Mr. Green when he examined it said it was a trap, and according to a recent decision when the nets are down it does not constitute an obstruction to the passage for salmon. However, I think the chance of the whole thing is this, that there for two days, the fishermen were asked to attend the enquiry by able counsel, was said for and against the bye-law, and the inspectors, Mr. Green Lane went and saw the place, and a decision was reached in the respect indicated by the bye-law. If the Earl of Dunraven and the proprietors were not satisfied, and pursuing a certain course, I think the bye-law would prohibit fishing at this point. As far as I can see there is no hardship on the fishermen.

Mr. Fitt proposed the following resolution: Resolved, That the bye-law in question be amended so as to read:—
