MUSIC HATH CHARMS.

The Boherbuoy Band are appealing for funds to enable them to purchase new instruments and repair those already in use. They are always willing to help the public, No doubt the public will be willing to help them. If so, Mr. Jeseph Desmond, Secretary, 1 Roxtown Terrace, City, will be glad to acknowledge any help given.

IF THERE WERE NO BIRDS.

If the world was birdless, a naturalist declares, man could not inhabit it after nine years' time, in spite of all the sprays and poisons that could be manufactured for the destruction of insects. The insects and slugs would simply eat all the orchards and crops in that time.

KEEP YOUR TEMPER.

One of the most difficult things to do in the world sometimes is to keep one's temper. A calm serenity of temper and a self-control which keeps a person unruffled amid the petty annoyances and ills of everyday life indicate the possession of perfect mental health. Nowadsys people are very fond of saying "So-and-so" was "just mad," meaning very angry; but it would be well if temper were more often seriously regarded as madness. It may be preventable madness, but madness it is while it lasts, and there is seldom snyone who is made more unhappy by it than the person who gives way to it. ---

SATIRICAL.

A rather satirical rebuff was given to a medical gentleman the other day by a Coroner during the progress of an inquest. As is well known doctors have a special professional language all their own, and one that is not easily understanded of the people, especially the people who constitute the ordinary coroner's jury. This medical gentleman was asked where the deceased was struck by a cart which nad knocked him down and killed him. "At the juncture of the dorsal and cervical vertebrae," replied the doctor. "Ah," said the coroner, "the jury may not know where that is; will you kindly point at out on the map," indicating one that hung on the wall. The doctor explained.

PROFESSIONAL COPPER CHANGERS.

To most people the possibility of making a living, that is, an honest living, by changing coppers has probably not occurred. A certain firm, who had a large stock of coppers on hand some years ago, offered one of their workmen a commission on all the coppers he could get exchanged for gold and silver money. The man got rid of such a large quantity at public houses, etc., that the firm lowered the commission. The thought then struck the man to visit the offices of the various gas companies, banks, etc., to ascertain if they would like to get rid of any coppers. They willingly offered him a small commission for exchanging their large quantities of coppers. The workman very soon left the firm, and has now his own carriage, his business card bearing the name of "copper exchanger" as his profession.

THE SCHOOLMASTER ABROAD.

As an example of an illiterate letter, one which has been sent to us, would require some beating. A man recently purchased a dog, and shortly afteramound on condition that half be paid by the daughter of the 1816 mr. Chas. Purcent, or I County at large.

Other applications were passed and some adjourned.

The County Surveyor's recommendations as to renewals of contracts were next dealt with and adopted.

The Council adjourned.

THE LATE MR. JASPER MASSY.

The death at Stoneville on Sunday last of this singularly talented, amiable and popular young gentleman at the early age of 22, was an event which caused widespread and most sincere regret in Rathkeale and surrounding neighbourhood.

The second son of the late gallant and esteemed Major Ingoldsby Massy, who gave his life for his country on the plains of South Africa, the deceased young gentleman had already entered the military profession, and was starting on his career under the most brilliantly favourable conditions, when it seemed good to an inscritable Providence, to check that career on its threshold.

Mr. Massy had lately returned from England. seized by a grave complication of several serious ailments, and despite the unsparing efforts of the highest medical skill in Dublin, Limerick and Rathkeale, he fell asleep—literally fell asleep, on

Sunday morning, the 14th instant.

The widest and despest sympathy is cordially felt by the whole seighbourhood for Mrs. Massy and the members of her family, a family of the old country stock, known, respected and beloved by generation after generation.

The funeral took place at the family vanit in Rathkeale, at noon on Wednesday last, the 17th, inst., and was attended by a large concourse of people of all ranks, classes and creeds. The remains ancased in a polished oak coffin, were borne on the shoulders of relays of willing helpers from Stoneville to Rathkeale Church, a distance of about a mile and a half. The coffin bore the inscription :-

> "Hugh Jasper Gerald Massy, 8 Lieutenant, 48th Pioneers, aged 22 years.'

and was covered and surrounded by a great number of beautiful wreaths, crosses, and floral offerings. These were transferred to the interior of the hearse, drawn by four horses, and so conveyed to their destination.
The cortexe was met at the church gate by

the Rev. Dr. McClean, and Rev. Treasurer Haydn, LLD., the former taking the service in the church, and delivering a short but most able and touching address. Two hymns were sung, and a funeral march played on the organ. The sclemn final prayers were read at the temb be Dr. Haydn, amid manifest and unmistakable indications of emotion on the part of the great assembly, after which the remains of the lamented young gentleman were laid with those of his ancestors.

s The ollowing area few names of those who attended the funeral or sent carriages, com iled from memory, as the writer did not make a list at the time: - Capt.
