Mr. Mescal—Name, name.

Mr. Fitzpatrick said he could not go on with this obstruction, but let the Press take it.

DEATH OF MR. HECTOR McKERN.

The "Buenos Aires Standard" of Saturday, October 26th, 1907 (just to hand) has the following:—

The news of the death of Mr. Hector McKern, who passed away yesterday at No. 724, Calle San Martin, has caused much sincere regret amongst his very wide circle of friends in this city.

The deceased, who was a well-known figure in Buenos Aires, was born at Limerick, Ireland, in 1824, his father, Mr. George McKern, being a leading stationer of that city.

In the year 1842, in company with his brother William, he arrived in the Plate and immediately took employment with one of the then leading American firms. A few years later he went out to the camp, returning to Buenos Aires in 1849, when he joined his brother George, who had recently arrived, and established a stationery business under the firm name of McKern Brothers.

Later on, Mr. Wm. McKern joined the firm, which for many years was the leading house in its line in the River Plate. In 1880 the deceased withdrew and purchased an estancia, "Las Tres Bonitas," in Lincoln. This he disposed of in the early nineties, since when he had not been engaged in active business. Mr. McKern was a well read and well informed man, and an interesting and instructive conversationalist. He was a well-known figure at the English Literary Society, where he frequently enjoyed a game of chess. Until six weeks ago he was in good health and appeared much younger than he was. At that time his digestion suddenly began to fail, but his mind remained perfectly clear till the last, and he passed away peacefully as above noted.

The funeral will take place to-day, Saturday, the 26th, at 3 p.m., from his late residence, 724 San Martin, for the British section of the Chacarita. Carriages will be in waiting at Deck's, Maipu, corner of Viamonte, up to the hour.

WARNING TO EMIGRANTS.
TO THE EDITOR OF THE LIMERICK CHRONICLE.
SIR—Permit me through the columns of your esteemed paper to draw the attention of intending emigrants to the United States to the fact that the latest reports to hand by yesterday's mail in regard to the financial crisis there are most unfavourable to them.
This is due to the dismissal of workmen on the leading railroads and to the shutting down of steel mills and various other industries caused by the recent financial disturbances. Waiters, domestics, etc., who contemplate seeking work over here should postpone their departure, for many servants at the present moment are being discharged.
As most of your readers are aware, the vast majority of the emigrants to America are of Irish and German extraction. The financial crisis in America is causing thousands of Irish and German emigrants to return to Europe.
I shall be greatly obliged if this letter can be re-copied by those in the West of Ireland, whose eye it catches, and who, no doubt, are interested in the emigration. In this way some of our unfortunate people may be influenced to stay at home, knowing, as they will, what is in store for them should they go abroad—at all events at the present time.
JOHN McMAHON.
