

G ASSOCIATION.

venth report of the Ladies' Committee Limerick Nursing Association was presented Wednesday by Mr. James Ellis Goodson, hon. secretary. Judging by the number of visits paid by the nurse, Miss Munn, no one can doubt the utility of the Association, which, like others throughout the Kingdom, was founded in commemoration of the Jubilee of the late Queen. The raising of the sick poor is an aspect of which few can afford to disregard. It urgently merits the support and sympathy of the public while the Committee of the Association is fortunate to secure a good roll of subscribers there is no reason why it should not be aided. The expenditure over revenue for the year under review was £24, due to the increase in subscriptions from £95 to £86.

each, and were bought from the manufacturer at 8d. a dozen," answered Mr. Dold, amid laughter. The Magistrate—Would the coating be a 9 carot wash? Witness—It is only a slight wash. Cross-examined—The rings are what the manufacturers describe as 9-carot gold-cased, and were so labelled. On standard gold they had simply the hall-mark, which was the only guarantee required. Sergeant McCormack swore that when Casey was arrested, cautioned, and charged, he made no statement. The prisoner was returned for trial to the next Quarter Sessions at Kilmash, and was then removed in custody.

FUNERAL OF THE LATE MRS. HURLEY, NEWCASTLE WEST.

The funeral of the late Mrs. Hurley, Newcastle West, wife of Mr. T. Hurley, J.P. which took place for Orange, was of very large proportions, and testified to the widespread regret which is felt at the demise of this popular and charitable lady, and to the sympathy which is expressed with her husband and relatives in their keen sorrow. The distance between the town and graveyard, over two miles, was not sufficient for the carriages and cars-embled, while to give anything like a detailed list of the general public would be impossible.
