THE LATE MR JAMES S. BENNETT.

The funeral of the late Mr. James S. Bennett,
of Rathany, who met with such a tragic end as
the result of a hunting accident at Knockaney,
on Tuesday, took place on Thursday for the
family burial place at Crecora. The cortege,
writes our correspondent, was one of the
largest seen in this part of the country for years.
It was very representative, a number of clergy-
men of all denominations being present, as well
as medical gentlemen, magistrates, and a large
gathering of the general public. The coffin was
covered with beautiful wreaths and crosses of
white chrysanthemums and violets sent by
sorrowing relatives and friends.

Expressions of regret were heard on all sides,
and sympathy with the bereaved family is wide-
spread. It would be impossible to give a list of
all present.

The funeral arrangements were carried out by
Mr. Michael Carmody, Bruff.

LIMERICK MILITARY RANGE.

In the House of Commons,

Mr. Joyce asked the Secretary of State for
War, whether his attention had been called to
the fact that the lands of Cappantymore and
Glenagross, situate within two or three miles of
Limerick, were inspected some time since by the
military authorities with the view of establish-
ing a range for military purposes; was the re-
port in every way favourable, and was it ap-
proved of; is he aware of the fact that a range
so situated would be of considerable advantage;
and that money would be saved to the Govern-
ment owing to the facilities afforded by the
central position in which Limerick is placed,
both by land and water, for the conveyance of
troops and stores; and, whether, having regard
to those facts, due consideration will be given to
the claim put forward to have a range established
at this place.

Mr. Haldane—The proposed range is within
four miles of Limerick, but is five miles from the
barracks. It is unsuitable for field practices,
but in other respects is favourably reported on.
As, however, the terms asked for a lease are
considered excessive, it is doubtful, unless they
can be modified, whether any saving would
result to the Government by establishing a range
there.
