(CORRESPONDENT).

CHARGE OF CENSORSHIP  
 decency, and all this in the asserbion of moral  
 censorship which had not been used for a hun-  
 dred and fifty years. And all this was done, not  
 upon its own judgment, but upon the  
 judgment of a discredited English official,  
 and at a moment when that official's  
 own employers had appointed a Commission to  
 consider whether he should or should not be  
 dismissed. For a moment the attempt to impose  
 the English Censership on Ireland has been  
 defeated, and the entire Press justifies the play  
 and our action, but it may arise again upon the  
 report of the Special Commission. The result  
 of the Commission will probably be some new  
 form of Censorship, possibly more intelligent, but  
 certainly as objectionable from the Irish point of  
 view, and a proposal to make it apply to  
 Ireland, with, as it is suggested, an Irish  
 assessor. This will mean no change so far as the  
 plays brought to Ireland by English companies  
 are concerned, but it will mean the putting the  
 plays of our theatre, and all plays produced by  
 the Gaelic League and similar societies, under  
 the control of a Castle official, responsible to the  
 English Censor. "Sinn Fein," the "Irish  
 Nation," and the official organ of the Gaelic  
 League have already made their protests. They  
 and we are but little concerned with the question  
 of the Censorship now being fought out in Lon-  
 don, but very much concerned in keeping the  
 liberty we possess.

**BOYS TRAGIC DEATH.**

**In County Limerick.**

A sad accident occurred at Oshircorney, near  
 Herbertstown, on Monday, resulting in the  
 death of a boy named Heaphy, aged 13 years,  
 son of a very respectable farmer in the locality.  
 It appears Mr. Heaphy was engaged in saving  
 hay with others in one of his meadows, and  
 being called to dinner, he left with his men, and  
 gave instructions to his son and another little  
 boy to mind the horse, which was tackled on  
 to a hay tosser, until their return from dinner.  
 Soon after Mr. Heaphy's departure the horse  
 knocked off the winkers, and young Heaphy  
 went to put it on, which he succeeded in doing,  
 but in buckling the throat band of the winkers,  
 the horse swerved suddenly and knocked the  
 boy under his feet, and then started off, the  
 poor youth being caught in the teeth of the rake  
 of the tosser and dragged some distance along  
 the ground. The other boy succeeded in stop-  
 ping the horse, but when the father returned  
 to the meadow he was horrified to find his son  
 impaled on the teeth of the rake, which had  
 entered his body and head. He died soon after  
 being released. The news of the sad accident  
 caused a great sensation in East Limerick,  
 where the boy's parents are well known and  
 highly respected. His funeral on Wednesday  
 to Fmly, via Hospital, was the largest seen for  
 many years.

**HOME AGAIN.**

**Nimrod Reaches Falmouth.**

Lieutenant Shackleton's vessel, the Nimrod  
 arrived at Falmouth on Thursday, and pro-  
 ceeded to London. All were well on board, and  
 it was stated that after leaving Cape Horn a  
 most enjoyable voyage had been experienced,  
 but nothing of incident happened. Previous to

Mr. Eakins was fer sending the case over  
 to the Quarter Sessions. After some conversa-  
 tion the case was returned for trial to the  
 next Quarter Sessions.

Messrs. F. Hobson and W. McDonnell re-  
 entered into balls in the sum of £200 for the  
 attendance of the accused.

**GREAT MUNSTER FAIR.**

The cattle and sheep fair held yesterday was  
 a good one, if not quite so large in supply as  
 the great fairs held in April and October of each  
 year. The business done was brisk, and, the  
 weather was fine. Buyers were in attendance  
 from all the principal markets. Best beef sold  
 at 60s per cwt, and at higher figures for fancy  
 lots. Medium going at about 50s to 55s, and  
 inferior touching down as far as 45s per cwt.  
 Mutton, which was scarce, sold at 6d to 6½d per  
 lb on foot. Three year old heifers fetched from  
 £14 to £16, and two year olds £11 to £13.  
 Yearlings went well and these with finished steers  
 brought high prices for sellers. They sold at  
 prices ranging from £7 to nine guineas, while  
 milch cows and springers went at all prices  
 from £14 to £18, and in some instances as high  
 as £20. Three year old bullocks realised £15 to  
 £17, and two year olds £11 to £13. The general  
 tone of the fair was good, and as one of the  
 new fairs long since established, it fully justifies  
 the action taken by the County Council in this  
 respect.

**GOING ABOUT WITH A  
 BROKEN NECK.**

An extraordinary instance of a man going  
 about with a dislocated neck for months  
 reported from Rugby. About Easter John  
 Rimmer, a labourer, fell downstairs and fractured  
 the vertebrae of the neck. He continued, how-  
 ever, to go about, and not getting better, went  
 on August 9 to Rugby Hospital as an out-patient,  
 but was detained. He continued to get worse  
 and died on Thursday.
