ENORMOUS SUCCESS

A Real Cure for GAPES.

KALYDÉ

(Registered)

Is prepared from the recipe of one of the most experienced gamekeepers in England, and has been used by him for the past twenty years, and never known to fail to CURE the GAPES in Pheasants and Chickens.

EVIDENCE :

Messrs. Chamberlin and Smith will be good enough to forward a tin of Kalydé. My previous experience of it leads me to believe that no case of gape is hopeless while a spark of life remains in the chick. A member of the medical profession myself, I have tried many experiments with indifferent success; but I think no one who tries Kalydé once will ever resort to any other remedy. You can make any use you please of this letter.

(Signed),

B. G. GRAHAM, M.R.C.S., Eng.
Eglinton Lodge, Irvinestown,
Ireland, April 4, 1892.

Sold in Tins, Post Free 2s 4d.
