FATALITY NEAR CROOM.

A two-and-a-half year old child of Mr. Edward
 McEniry, Graigacurra, Granagh, succumbed on
 Tuesday in Croom Workhouse Hospital to burns
 sustained at its parents' house. It appears that
 during the temporary absence of the father and
 mother the child used a bellows on the fire
 causing a flame which caught on the deceased's
 clothing. An alarm having been raised, the father
 was promptly on the scene, and, in endeavouring
 to save the child, got rather badly burnt him-
 self.
 An inquest was held on the remains yesterday
 by Mr. Coroner Clery, and a verdict of accidental
 death was returned, the jury conveying their
 sympathy to the parents of the ill-fated child.
 Dr. Hartigan gave evidence of the cause of
 death.
