SERIOUS ACCIDENT.

Fatal Result.

Patrik Bourke, fifty, a labourer, was admitted to Barrington's Hospital on Tuesday night in an unconscious state, and suffering from serious injury to the head and other parts of the body, caused, it is stated, by accidentally falling into a yard or cellar. He is in a critical condition, and but faint hopes are entertained of his recovery.
On inquiry at Barrington's Hospital to-day it was ascertained that the patient, who was so seriously injured by falling into a cellar at Arthur's Quay on Tuesday night, was still unconscious. He is believed to have sustained a fracture of the base of the skull, and was suffering from hemorrhage of the brain. There were no hopes of his recovery, owing to the nature of the injuries he received, and Bourke died at 1.15 this afternoon.

Outbreak in County Cavan.

Enniskillen, Wednesday.—The outbreak of foot and mouth disease at Stumpy Hill, Swanlinbar, Co. Cavan, is now confirmed. Two animals have been discovered suffering from the disease and have been slaughtered. This district is further away from Enniskillen than the previous outbreak, the present case being on the border, and there is hope that the Enniskillen Fair, on 10th October, will be held for the portion of the county north of Lough Erne. Outbreak of Cattle Disease in Sunderland.

The outbreak of cattle disease at Downhill Farm, near Sunderland, has involved the milk cows and three goats.

In reply to a query, The Secretary said there were but two applications for treatment sent in so far. The forms were sent out, but so far they had not been filled in and returned.
Alderman McNeice feared that they could never work the Act to their satisfaction until the dispute between the Medical Association and the Commissioners was settled.
Dr. Fogerty said there was no dispute in Ireland between the Medical Association and the Commissioners. It was agreed to pay 5s. for each certificate.

Alderman McNeice said he had seen a newspaper report where the Commissioners stated the fees arranged in Dublin were higher than now demanded by the British Medical Association, and could not agree to them.
Dr. Fogerty said he was not aware of that. Continuing, he said when the permanent scheme came up there would be a full-time officer appointed by the Corporation to do that work.

Alderman O'Donovan—Not compulsorily.
After some further consideration, the following were appointed on the Benefits Committee:—Dr. Fogerty, Dr. Graham, the four lady members, the four members elected by the County Borough Council—viz., Alderman McNeice, Alderman O'Brien, Alderman O'Donovan, and Councillor McInerney—Mr. Murphy, and Mr. Scully.
In this committee three members will likewise form a quorum.
Days and hours of meeting were then fixed.

In the course of further discussion, Alderman McNeice said he thought it was a great mistake that the medical benefits were not extended to Ireland. Prior to the passing of the Act a patient had the right to attend a dispensary, through which his case would be attended to; but now because he was an insured person, for which the Committee received 1s 3d per annum he had to be attended to by that Committee and paid for by them. The sooner they had medical benefits extended to Ireland the better for all concerned.
After transacting further business, the Committee adjourned.
