BEg to notify their numerous patients that owing to their increased practice one of the firm will attend personally on the above dates and regularly every fortnight.

Messrs. Davies' system of Artificial Teeth, protected by "Her Majesty's Royal Letters Patent," surpasses all others for Economy, Durability, Mastication, Articulation, and Natural Appearance. Being indestructible, they never change colour or decay, and a written guarantee is given of the purity of the materials of every case made. They are worn with such ease and comfort over the most tender gums and sensitive stumps that the wearer speedily forgets the deficiencies of nature have been supplied by art. Decayed teeth rendered sound and useful with "White Adamantine Enamel."
