are amongst its most ardent supporters, and it is undoubtedly a matter for gratification that such is the case, for the support and sympathy and approval of the Irish Catholic Clergy behind any movement provide a guarantee that the movement will be conducted on sane, sensible and trustworthy lines. The new Archbishop of Cashel, Most Rev. Dr. HARTY, in common with all the far-seeing priests of Ireland, is fully alive to the importance of the Hibernian Order from the Catholic as well as the National standpoint. "We have," says his Grace, "no truer defenders of our religion and no more ardent lovers of our nation. Acting in perfect harmony with the laws of the Church to which they are proud to belong, they are a source of strength to Faith and country." Lord DEN- HIGH recently held forth against the "per- nicious" Hibernians. Canon RYAN, of Tipperary, answered him very effectively in a brief but sensible letter to *The Tablet*. After quoting Dr. HARTY's tribute he says:—"I may add to the approval of the Ancient Order by two Archbishops of Cashel the revised opinion and the benediction of Cardinal LOGUE. What seems to me "pernicious" is that Catholic Unionists should make Catholicity in Ireland a pawn in their political game." The Hibernian Order has fully justified its existence, and we trust it will go on increasing in membership and usefulness as long as it carries on its activities under the banner of Faith and Fatherland. It needs no apology for its existence and its objects, and that fact will become apparent when an analysis is made of the motives underlying the venomous and unreasoning character of the opposition by which it is confronted.

## Death from Sunstroke

A small boy named Tobin, aged between 2½ and 3 years, residing at North Strand, Thomond-gate, was suddenly overcome to-day with the heat, and died from the effects of sun- stroke. The youth was in the act of running to meet his father, who was going to his dinner, when he suddenly collapsed.

## Limerick Lady's Profession

The profession took place on Holy Thursday at Namur, Belgium, of Miss Annie Nunan (in religion Sister Mary Xavier). The young nun, who is daughter of Mr. Timothy Nunan, Kilmurry, Monaleen, Limerick, was received into the Order of the Faithful Companions of Jesus at Laurel Hill Convent, Limerick, in May, 1913.

## Kerry Highway Robbery Recalled

Mr. John V. Chambers, for several years manager of the Listowel branch of the Provincial Bank, has been transferred to the managementship of the Skibbereen branch, and replaced by Mr. Joyce, of the Kilkenny branch. Mr. Chambers was highly popular amongst all classes of the community. It will be remembered that Mr. Chambers was one of the two Bank officials held up in the North Kerry highway robbery last year.

## City Police Court

Mr P. J. Kelly, R.M., attended at the City Police Court this morning, but there was no case for hearing.

as many of the above classes were in a very bad state owing to the southern ports having been shut up.

The Secretary said he had written to the English Board of Agriculture, Mr. T. W. Russell, Mr. Gill and Alderman Joyce about the matter, and he had received a letter from Mr. Gill stating that it was owing to the order of the Board of Agriculture and Fisheries, and not of the Department of Agriculture and Technical Instruction that the exportation of cattle from Limerick port was not at present permissible, but the request of the Commissioners would, however, be kept in view by his Department. Alderman Joyce had also written that he and the Party had left no stone un- turned to have the restrictions removed. He (the Secretary) had pointed out that the port of Limerick should be opened to the export of cattle, as there were no outbreaks of the disease in Galway, Clare, or Limerick.

Chairman—I think we ought write to Mr. Cronin stating that we were pressing the matter forward.

Mr. Goodbody—You are not taking action as a body.

Secretary—I wrote on behalf of the Harbour Board.

The Chairman's suggestion was agreed to. Mr. Dooley inquired what was the position of the dock gates at present.

The Engineer said they expected to be finished with the outer dam to-day. There were a couple of mishaps, such as bad weather, etc, which were unavoidable.

Mr. Dalton inquired if the contractor had not finished within a certain time was he liable to a penalty.

Engineer—Yes, he is liable, but there is something in the contract about unavoidable contingencies.

Mr. Goodbody—There is nothing in the con- tract about weather.

Engineer—There is.

Mr. Goodbody—I don't remember.

Engineer—Matters over which he has no control.

Mr. Griffin inquired why the bank gate was closed on yesterday.

The Engineer said that was a mistake. It should not have been closed, and he gave no orders for its closing.

The other business was routine.

## THE CITY STRIKE

### ACTION OF FARMERS' ASSOCIATION

At the annual general meeting of the Lime- rick and Clare Farmers' Association on Satur- day, Mr. T. W. W. Bennett, J.P., Chairman, pre- siding, Mr. M'Donagh suggested that a com- mittee should be formed to try and effect a settlement of the unfortunate strike at Messrs. Boyd's. He thought they could do a great deal of good.

Mr. Browne—I don't think we could.

Mr M'Donagh said they could use their in- fluence and do the best they could in the matter. He would name Mr Fitzgerald, Mr Dundon, Mr O'Connell and the Chairman, as the Committee to act, Mr O'Riordan to commu- nicate with Mr Holliday as to the day it would be convenient to see him.

The Chairman agreed with the proposition which he presumed would be seconded un- animously and thought it would be a very good thing to do.

## West Limerick Blaze

### FIRE AT DROMCOLLOGHER

About 3 o'clock p.m. on Friday, the drapery premises of Mr. Galvin, Dromcollogher, were found to be on fire. Some household linen drying before the kitchen range was discovered blazing, and had lighted rolls of linoleum and tarpaulin stacked in the farthest corner of that apartment. A view from the shop caused all to despair of extinguishing the fire, and every effort was directed to removing the goods to other houses. Happily, Messrs. Crowley and Sullivan were able to enter by the back door, and water being convenient, the fire was overcome. Foremost amongst the rescue workers were Messrs. Murray and Walsh, drapers. A little army of volunteers rendered assistance.
