### Perils of the Sea.

The *Daily News and Leader* says :—That a ... catastrophe of this magnitude should occur while ... the wreck of the Titanic casts its shadow over us ... is a profoundly disquieting fact. It is not less ... disquieting because, so far as the information ... goes, the disaster is free from those elements of ... human failure which made the wreck of the ... Titanic give so staggering a blow to public confi- ... dence. If there can be any mitigation of so ... profound a sorrow, it is to be found in this, that ... the doom that overtook the Empress of Ireland ... was not invited, but came out of those perils of ... the sea that, whether avoidable or unavoidable, ... defy all human prescience on the part of the ... victims, and bring all the precautions of human ... wisdom to naught.

### Limerick-Men on the Ill-Fated Ship.

We learn that two men, natives of the City of ... Limerick, named Downey, a Quarter-master, and ... Flaherty, were members of the crew of the ... Empress of Ireland. So far as we can gather ... there were no Limerick-bound passengers on board ... the ship.
