

actor—I am very much obliged to ask my view, and I am only glad to say that inquiry concluded yesterday very happily, went through it without any trouble, and am sure a great deal of it must be due to the courtesy and kindness of the members of the Council.

Mr. Bennett—We are all very grateful to Mr. Murphy, too, because he dealt with the inquiry in a most amicable spirit, and we are thankful to him.

Mr. Daniel Moloney—I think we have nothing to do but to reduce the scheme, and report to the Local Government Board that the money spared off the half-acre would be added that for the cottages. By that means you will get more cottages, and really the houses are the principal thing in any scheme.

Mr. Hanrahan questioned that a person getting only half an acre would be content while others had an acre, and said it might be that they would have another agitation that would drive them into the open market again.

Mr. Daniel Moloney said there was no doubt it would come some time, but was it not better to try and build houses and give the poorer accommodation. They were better with a house and half an acre than having no house at all.

Mr. Bennett—If a man went into the open market now for money he would find it very difficult to get it.

Chairman—If deserving people are without the additional half acre there are deserving people without houses, and is it not more necessary to attend to them? If we adhere to the original scheme we won't be able to build at present prices.

Mr. Power, solicitor, suggested to represent the matter to the Local Government Board.

Mr. Bennett said they should not delay in doing as there were other unions looking for a portion of the million of money. He proposed a resolution on the lines indicated, reducing the allotment of land from an acre to half an acre, the money saved thereby to be applied towards the building of the cottages. Mr. Moloney seconded, and it was unanimously adopted.

On the proposition of the Chairman seconded by Mr. Bennett, a vote of thanks was passed to the Inspector for his kindness and courtesy during the inquiry.

Sad Fatality at Ennis

Mason Receives Fatal Injuries

THE INQUEST

RAILWAY COMPANY CENSURED

Our correspondent, wiring from Ennis today, states:—A sad accident occurred at the Ennis Railway Station on yesterday morning at 11.30 o'clock. A man named William Connon, aged 65, a widower, and mason by trade, and who was in the employment of the Great Southern and Western Railway Company for a number of years, was engaged at a wall near the station, when a wagon caught him, pressing him to the wall with such force that he died in about half an hour afterwards, though his injuries were of a slight nature. An inquest was held later. Alexander Kennedy deposed that the deceased did not see the wagon attached to the engine. The deceased was pulled along, and death resulted in half an hour afterwards. The jury returned a verdict of accidental death due to shock. The driver, Kenny, and foreman, O'Loughlin, were exonerated from all blame. The railway company were censured for negligence in not having a man on watch to guard against such accidents.
