DEATH OF LIEUT. ST. CLAIR KENNEDY.

We record with deep regret the death which took place on the 6th instant at the Royal Military Hospital, Cork, of Lieut. Arthur St. Clair Kennedy, 2nd Batt. Royal Dublin Fusiliers, youngest son of Mr F. G. M. Kennedy, Sivoli, Limerick. Deceased was gazetted in June, 1914, to the 2nd Batt. R. D. F., and was promoted full Lieutenant on 15th November, 1914. He served with the Expeditionary Force with his regiment, was through the battle of the Aisne, and subsequently invalided home from France. He was later on sent on duty to Cork with the 3rd Battn. of his regiment, and expected soon again to go to the Front with a draft. But he contracted pneumonia which proved fatal on Saturday last to the deep regret of his brother officers and all ranks in his regiment with whom he was deservedly popular. The death of this promising young officer is also keenly regretted by a wide circle of friends in private life who deeply sympathise with Mr and Mrs Kennedy and family in their poignant grief.

The late Lieutenant Kennedy was buried with full military honours on the 8th inst. in the military cemetery, Cork. The coffin was carried by eight officers of the 3rd Batt. R. D. F., and a wreath sent. "In Remembrance from his Brother Officers." was placed on the coffin by the Com- manding Officer.

South African War Veteran's Experience.

Mr. J. Brown, Albert Street, Townhead, Glasgow, writes:—"I went through the South African war, and for the past two years I have had the three years of hardship and exposure brought

home to me with a vengeance. Rheumatism attacked me in all its force, and I have tried everything. It was not until I discovered Sloan's Liniment that I knew what relief was. A cruel disease has been banished by your wonderful liniment—it seems to act like magic."

Hundreds of people have given their testimony to the wonderful relieving power of Sloan's. If you have never tried it get a bottle to-day from any chemist, 1/11 or 2/3, or apply for

The German Reichstag.

"Our Sacrifices are Gigantic"

Amsterdam, Wednesday.

A telegram from Berlin states the Reichstag was opened to-day. The President, reviewing the war situation, said in the West from the Vosges to the Channel, and in the East from the Baltic to Bukowina our armies and those of our Allies are standing like a wall of steel and iron.

In the South the brave Turkish Army is guarding the Dardanelles, which a superior Anglo-French Fleet vainly attempts to conquer, and also threatening the Suez Canal and Egypt which has become the prey of the British Empire. England declares she cannot forego the right to starve Germany. Germany has replied with submarines, the crews of which have already given many proofs of their heroic bravery. Germany is not to be conquered by starvation. Our enemies did not reckon with our economic strength, with the organisation and strength of our agriculture, commerce, and industry, with the unity of the nation, and with our firm determination to win. Our sacrifices are gigantic, but on the bloodshed battlefields a lasting peace springing up which will lead our great...
