I remain, yours faithfully, MARY R. BARRINGTON

JUSTICE PIM CONGRATULATED.

There were large audiences at the Rink Palace last night, when a select programme of pictures was on exhibition. An insight into cowboy life was given by a fine film, showing the exploits of these denizers of west country whose intreagain over and been over pidity haa Murdoch The celebrated exemplified. Trial embraces a sensational detective story of clever parts, and was followed with keen attention. Among the other pictures shown were "Countess Sweedie," 'A Safe Adventure," rolliaking farces, and the topical gazette, embracing the latest events of the week. The management makes the special announcement that next week commencing Monday night. Madame Marie Levante's celebrated Orchestra will visit, the Rink. This musical combination, which has a world-wide reputation, is composed of ladies and will be conducted by Madame Levante. re-sppearance of the Band in Limerick will be received with pleasure, and it is safe to anticipate that large audiences will visit the Rink during the engagement. The Band will give two per-formances each night, when there will be a complete change of programme.

THE ATHENÆUM.

Premier place in a bright and entertaining programme of pictures at the Athensum last night was given to a film entitled "Devil's Eye, shown in two parts. The incidents of the drama are expiting and interesting, and depict a capitally drawn story. "The Lion Hunter" is another film full of adventure and highly stimulating, while "Badge of His Office" is a clever subject and quite agreeable in conception. The Keystone comie, "Musical Career," is as amusing as it is taking and skilful, while "In Taxi 23" pourtrays a povelty in the domain of pictureland, and its tunny episodes helped to keep the audience occupied with burlesque situations. The picture designated "Down with the Huns" revealed tit-bits of war, illustrated its realism, and is a story of superlative human endeavour.

FATAL DROWNING ACCIDENT.

Between five and six o'clock on Saturday evening some small boys went to bathe in the river at the Parteen side, east of the Railway Bridge. One of the boys, Patrick Hoarigan, uged 11, got into the water, and appears to have accidentally passed beyond his depth. The poor little fellow struggled for a time, clapped his hands for aid and sank before assistance reached him. The boy was a member of a family residing at the Island, and the City Coroner, Mr JF Barry, J.P. having been communicated with by the police, did not think it necessary to hold an inquest.

LADY LIMERICK'S BUFFET FOR SOLDIERS.

Mrs Asquith, wife of the Premier, visited on Friday last the Countess of Limerick's Buffet for Soldiers and Sailors at London Bridge, and helped to give the troops hospitality. Her Excellency Lady Wimborne also helped one day last week to entertain at the Buffet, where thousands of soldiers and sailors are looked after each week. A very large number of these are Irish, and it is interesting to state that Mr Baring, M.F.H. who also helped, got a rousing reception from soldiers from the County Limerick.

COUSIN OF DEAD AVIATOR.

Lusitania met. He was sure they afraid, but prepared, to die for necessary. Within a few months they would have a General Elect probability, and the people should for it by strengthening the National and maintaining it as a fighting force

Fighting at Gallip

Munsters and Dublins' Br

The Duolin and Munster Fusiliers f didly at Gallipoli, writes Ernest E Australian Imperial troops, from a Malta to his father, Mr John Egan, Dublin. They were the first of the ments to land, he goes on. Their far more difficult than the land Australians. Barbed wire and shra They took every terrors for them. They took every them. They were ordered to charge a them. They were ordered to charge a cliff. They charged the Turks with sailors who witnessed the charge were sailors who witnessed the charge were excitement and delight, and chee Ireland. The Turks were driven b vards.

In another letter he says that a few the landing had been effected the Ti the British frenches shouting "Alla were mown down by machine gun ar charge was made against them bay onets. They turned and fled.
