of life, let us see that we exercise honour and
discretion, courtesy, and self-restraint. Even in
our conduct towards the enemy we can reveal our
origin, and reveal ourselves sons of an ideal as
ennobling as any that has ever put arms into
English hands, for this war was not of our
seeking. As a nation we entered into it in no
spirit of aggrandisement or conquest. It would,
therefore, ill behove even our small unit to treat
it as some personal difference between Britons
and Germans.

"It is something far finer than that—it is a
duel between rival religions; it is once again the
battle of beliefs; it is an old age contest between
the Dominion of Darkness and the Kingdom of
Christ.

"We fight that liberty may live; that love may
never perish from the earth; and inasmuch as the
strength of the fighter is the strength of our faith,
his cause must in the end prevail.

"I suppose the leaders of most enterprises pro-
mise their followers good times. I scorn to lay
before you prospects of ease and cheap success.
You will scorn to expect such from me. I will
only promise you difficulties, discomforts, wounds,
yes, and even death. But I ask your loyal service
for a sacred cause, and hold no doubt as to your
reply. So with the King's message ringing in
your ears let us go forward confidently."
