Weekly Cattle and Sheep Market.

Wednesday, November 1st—A heavier supply of stock than last day, except in the milk section. In the store cattle department there were a good number of useful lots, and as enquiry was active with strong attendance of buyers the more forward promising lots met a particular ready quick market at best rates. The calves shown for sale included some specially fine lots as prices indicated they may be set down as good as good all round. The price for calves obtained by Mr J Madden at the sale for bullocks and the same price for heifers. The best prices during the day were £9 8s, £9 2s, £8 10s, and £8 14s. The better class made from the old forward stores, £17 6s; other prices, £15 5s and £11 5s; two and a half year old cows, nearly fat, £24; springing heifer, £27 10s. Good clearance.
