100 MILES TOUR IN DENMARK.

representative of the Central News who has completed a comprehensive tour of Denmark, a tour of which he was afforded by the ample facilities for viewing the country being entered upon, writes—Immense things into many millions, are being exported from Copenhagen on new harbours, docks and wharves which will be completed about five years. The free harbour, twelve enormous warehouses have been created since the war with the Danish Denmark the principal "clearing" of all the Baltic trade. A visit to exemplified a remarkable enterprise on hand. To the casual observer, Jutland may seem to be one vast sandhill, but already results are apparent of Danish methods. The auspices of the Health Society visit to the north are now undergoing the process of sanitation. Plantations of pine trees are in an orderly array, and the constant falling of trees, leaves and vegetation, make, with the addition of marl, very rich arable land. The soil obtained from quarries, in which the Danes employ the labour of their convicts. This system of work exceedingly well. It is notable that only a small guard is employed, and that these are not armed with rifles. It has always been noted as the work of the small cultivator. It has been the custom for many years for thrifty members of the working classes to purchase a piece of land, and to build a small house in which to live during the winter months while cultivating the land. In Great Britain, the house shortage is now being met in Denmark, and these small allotment plots have proved to great demand and of very high value. Incidentally it may be mentioned that the difficulty caused by the shortage of roofing has been overcome by the free substitution of slate, a system which gives warmth in winter and coolness in summer.

WEATHER REPORT.

Widestown, Broadford, Co Clare
AUGUST, 1919.

RAINFALL.

Total rainfall for the month was 2.82 inches, 7 inch. under the Aug average here for 34 years. The number of "rainy" days was 22, above the average for the same time. The greatest 24 hours' fall was 61 inches on the 1st of August. The total rain so far this year, 22.49 inches, and

The arrests, which were made on Tuesday, comprise those of Thomas Griffin (28), shoemaker, Ballynoe; Patrick Leahy (22), of the farming class, also of Ballynoe; and John Mulvey (26), assistant to his brother at Rathcormac, who is the owner of a Ford motor car, which was seized by the military later in the day. These and five other men, nearly all of the labouring class, were charged before Mr Dickson, R.M., with the murder of Private Jones, and also with conspiracy to murder him.

District Inspector Lewis made a short deposition, detailing the arrest of the defendants, none of whom made any statement. He arrested them on suspicion, and charged them with complicity in the murder. He asked for a remand for eight days, when he hoped to be in a position to offer evidence.

Three of the military squad, one of whose life was in danger, were unable to attend to try to assist in the identification test.

When asked by the Clerk of the Court if any of the defendants had anything to ask the District Inspector, Laurence Condon, for all the accused, answered: "Nothing whatever."

The accused were accordingly remanded.

Resolution of Belfast District Methodist Synod.

At a meeting of the Belfast District Synod of the Methodist Church, held in Donegal-square, Belfast, on Tuesday, the following resolution was adopted, on the motion of the Rev F. E. Harrold, M.A.:—"That this Synod of the Belfast Methodist Church has heard with alarm of the wanton attack upon a party of soldiers on the way to our church at Fermoy on Sunday morning, while one of them was killed and others wounded. The Synod tenders its sincere sympathy with the family bereaved, and calls upon His Majesty's Government to take steps to put an end to such outrages."

THE LATE MR JOSEPH O'FARRELL.

The funeral took place on Sunday, from St Mary's Parish Church, of the late Mr Joseph O'Farrell, Athlunkard-street, who died on the 5th instant, after a somewhat protracted illness, at a comparatively early age. The deceased, who was son of the late Mr John O'Farrell, a former Governor of the City Gaol, and nephew of the late Alderman Hogan, a representative of the Abbey Ward in the old Corporation, was widely known and much respected in the city. This was amply evidenced by the large number of people who attended to pay a last tribute of respect to his memory on Sunday. The chief mourners were—John O'Farrell (Waterford), brother; John and Martin O'Farrell, nephews; Robert, John, James, and Wm Gubbins, cousins. The clergy present were—Rev Fr O'Gorman, C.C., and Rev Fr O'Carroll, C.C., St Mary's; Rev Fr Connolly, Adm., and Rev Fr McNamara, C.C., St John's. The interment took place at Mount St Lawrence Cemetery, Rev Fr O'Gorman officiating at the graveside. General sympathy is felt with the widow and relatives of the deceased in their bereavement.

RAILWAY FREIGHTS AND DOCK CONGESTION.

It is announced that Sir Eric Geddes has advised an advance in railway freight charges, so as to enable the subsidy on the railways to be discontinued. By this means the Exchequer will be relieved of a very serious burden, and the dislocation of our whole transport system, which the inquiry into the dock congestion disclosed, will
