

even in the coming year were very small indeed.—they might not be held before next Summer. At all events, the battle at the polls for Municipal and County honours is still a long way off, and evidently a matter of uncertainty as regards the precise date, though the old day for the elections, the 15th January, has, as stated, been provisionally fixed by the Dail. All must depend, of course, on the time, whenever it may be, the Local Government Bill becomes law.

CANNOCK'S CLOCK.

After being out of commission for two years as a result of being destroyed by rifle fire during the hostilities of July 1922, Cannock's fine clock has been restored. On Thursday evening the familiar Westminster chimes of this useful time-piece fell on the ears of the citizens at a quarter to eight.

The clock which is one of the most prominent and attractive "landmarks" in our city, was made in 1888, by the firm of Messrs Gillett and Johnston of Claydon. The restoration was entrusted to the makers, and it is interesting to note that their representative who has completed the work is their oldest workman, and he assisted in the making of the clock.

The public will heartily welcome the restoration and as in former years will find it most convenient to look up to its fine dial and get "the time."
