

...an important repercussion of prices in Great Britain, and improve the prospects of Irish breeders in a keener demand for from this country. Apart from this of the question the development of Irish dead meat trade, which has been discussed, will, no doubt, engage the attention of industrialists. This lar trade has many advantages, not irectly, but in the creation of sub- industries, while it would also keep at home, and open up new avenues loyment. It is interesting to note hile the imports of live stock from t have been growing steadily during t few years, they are still "very much than the Irish cattle exports; and, , that they can have had little effect e considerable fluctuations in the of Irish exports for the period 1923 6." This is encouraging to the Irish trade.
