corridor coach on the train, and that  
the rest of the train was made  
up of single compartments. For a  
long journey such accommodation, it  
must, in fairness be stated, was anything  
but adequate in view of the fact that six  
hundred travelled by the train. Contrasted  
with the facilities given to Cork on the  
same date, Limerick was not treated as it  
should have been, and it is to be hoped that  
on next Saturday morning the Company  
will provide Limerick with ample corridor  
train accommodation, which is essential for  
the comfort of passengers.
