Horse Show Revival.

Horse Show, which previous to the War was a prosperous undertaking, is to be revived this year, and is to be held on the 21st and 22nd inst. For some months past a committee has been working out the details, and there is every prospect that their efforts will be successful. The promoter of the Show, Mr John O'Dwyer, Chairman of the County Committee, at the meeting of the County Committee of Agriculture yesterday, invited the assistance of the members in furthering the project, and this was readily promised. It is recalled that in the old days the Horse Show was a great social event in Limerick, and attracted large numbers of visitors from all the surrounding counties, and further afield, and exhibits were representative of the best of Ireland. The Show was a great benefit to the city, and we feel confident that the citizens will on this occasion co-operate with the county in the effort of making the Show the success that it should be.

When picked up he was unconscious and bleeding from the head, and succumbed within an hour, after receiving the ministrations of a priest and being medically attended.

COUNTY COMMERCIAL COURSES.

The commercial classes included in last year's scheme of technical instruction by the Co. Committee of Agriculture and Technical Education are not the success predicted for them when the scheme was framed. The only exception in this respect is Newcastle West, the Secretary of the Committee told the meeting yesterday when he said that there had been a big falling off in attendance in other centres since November. Rev. Father Wall, C.C., Foynes, considered this disappointing, and enquired if any positions had been obtained by the pupils attending the classes at Newcastle West, but received a reply that there was no information available at the moment. From the views expressed it would appear that the Committee are not desirous of expending money on an educational course that is not appreciated generally, but deferred action until the next scheme is being framed.

out that she was unable to attend Dromcollogher at the time previous regulations. The Very Rev. P.P., had informed her that the children could only attend from 10 o'clock, but under the regulations of the Department of Education would school going children to attend classes during school hours. Canon Reeves of this here would get into communication with the Department, and get their sanction for the proposal.

The Secretary said that the view of Mr Duffy was quite correct, as that would preclude school-going children from attending technical classes during school hours.

The Secretary was instructed by Canon Reeves informing him of the conditions, and unless they were commensurate with Dromcollogher the instructress would be moved on to some other centre.
