Mr Power—There has been only one such conviction since I became State Solicitor in 1926. It is time, however, that drivers of hay carts were warned of the dangers of riding on one side of their vehicles and thus having no view of the other side of the road.

The Justice said that he did not think any great good would come of issuing such a warning, as riding on one side of a hay cart appeared to be the usual practice. He would have to refuse informations in the case.

DEATH OF MISS M. BURKE.

The death, which we announce with deep regret, took place in a Dublin nursing home last night of Miss Mary Burke, at the early age of 24 years. The deceased lady was younger daughter of Mr W. S and Mrs Burke, Crescent Avenue, and had been studying for her B.Sc. degree, when her health broke down under the strain. She was a highly talented young lady, and last June she finished a three years' course at the National University, where she received many distinctions. Miss Burke possessed qualities of charm of manner and a warm hearted disposition that endeared her to a wide circle of friends, who will extend sincere sympathy to her parents, sister, brother, and relatives in their great loss, and in which we join.

The remains will arrive in the city by train at 8.35 o'clock to-night, and the funeral will leave St Michael's Church after Requiem High Mass at 10.30 o'clock to-morrow for the family burial at Killaloe.
