

der to encourage early pay-
 es. That system has worked
 in one of the English counties,
 no reason why it should not
 in this country. While the
 credit notes helps, the discount
 would be far more beneficial. The
 allow discount to ratepayers
 their first moiety within two
 receipt of the demand note,
 or discount to those paying
 moiety not later than the end
 of the year. The proposal is worthy
 and should, therefore, be enter-
 the various Councils with the
 of the Department of Local
 Government.

INDICATING DISEASE.

PUBLIC CONVENIENCES.

The City Manager has decided, subject
 to the approval of the Corporation, to
 borrow money for the purpose of building
 public conveniences in the city. In this
 respect the city is very inadequately
 served, having only one such accommoda-
 tion, and that in Upper William street.
 There are, it is true, three or four others,
 but they are so primitive as to be an
 outrage on the standards of decency.
 They are old and practically dilapidated,
 and a positive disgrace, not to say a
 danger, to the public health.

IMMUNISATION SCHEME.

The City Manager (Mr T. C. O'Mahony)
 has prepared a scheme for the immunisa-
 tion of approximately 2,000 children
 against diphtheria. He has asked the
 Department to sanction the appointment
 of Dr J. Lyddy as Immunisation Officer.
 Last year the Corporation carried out
 a similar scheme, and last week only one
 case of diphtheria was notified in the
 city.

LIMERICK TEACHER'S FUNERAL.

After Solemn Requiem Office and Mass
 at Glin Parish Church, the funeral of Mr
 W. Griffin, formerly Principal of Bally-
 guiltenan Boys' School, took place to the
 parish churchyard. Many of his pupils
 obtained important positions. He was
 a member of an old Co. Clare family.

officers, it was decided to in-
 itiate a scheme of immunisation,
 and results soon became patently
 apparent. The irritating epidemics
 began to cease until to-day they have
 practically disappeared. The schemes
 inaugurated have worked wonders for
