

A Fenian's Death

Sympathy From County Health Board

At the meeting of the Limerick County Board of Health,

Mr Harnett moved that the sympathy of the board be extended to the widow and son of the late "Doctor" Tom Mulcahy, Killeedy, whose death took place recently. Deceased was an outstanding figure in national and social affairs. During a long life he devoted considerable time and help to all national movements in the furtherance of the freedom of his country. He belonged to the Fenian Organisation and the Republican Brotherhood, and was a virile worker in the organisations fighting landlordism. In their own day, though an old man, he joined the I.R.A. and Sinn Féin movements, and up to the last was an uncompromising Republican. His death removed from Killeedy and West Limerick an outstanding member of the Old Guard, and one of the few remaining links with past Irish history.

Mr Hartney seconded, and the Secretary associated himself with the vote on behalf of the staff.

The resolution was passed in respectful silence, all members standing.
