

Nurse's Death

Co. Limerick Infirmary

Special Meeting to be Held

Limerick Co Infirmary Committee, at a meeting, considered correspondence received from Mrs K Keyes relating to the death of her daughter who had been a probationary nurse in the hospital.

It was decided to fully investigate the circumstances of her employment at special meeting.

The Secretary was instructed to forward to the Law Adviser all available information and the latter was asked to prepare a report for the special meeting.

Dr Feeley said that a lot of false lies and rumours had already gone abroad concerning the case and he believed the investigation should get due publicity, particularly the doctor's statement.
