#### RECENT WILL.

Miss Margaret O'Donnell, of Waterloo  
Road, Dublin, died on November 25th,  
1936, leaving personal property in Eng-  
land and Eire valued at £5,704. Probate  
has been granted to her sister, Josephine  
O'Donnell, of 5 Wellington Terrace,  
O'Connell Avenue, Limerick. She leaves  
£400 for Masses, £100 to the Ladies'  
Association of Charity of St. Vincent de  
Paul for the poor of Limerick, £100 to  
the Good Shepherd Convent for the Mag-  
dalen Asylum, Limerick, and the residue  
of the property equally between her  
sisters Josephine and Julia O'Donnell.

#### LUCKY STUDENT.

A Limerick motorist has been  
informed in the Ennis Court on his  
pulpulation of his car when in an ex-  
traordinarily tight corner. George Carey,  
driving into Ennis, and nearing St.  
John's College a student dashed out  
on his bicycle, evidently regardless of  
pedestrian traffic—very awkward situation  
for a motorist and perilous for cyclist.  
In the great presence of mind Carey a  
brakes, swerved to avoid the  
student. In doing so the car mounted  
the footpath, dislodged two concrete  
piers, bent the iron gate, and  
with a telegraph pole, while the  
car was lifted from the machine and  
like landed on his feet in the  
Lucky student, who was looking  
for trouble. The lesson cost him ten  
pounds, and there is to be no more  
cars through that entrance. In futur-  
e accidents must walk.

#### SCHOLARSHIPS.

Limerick Branch of Association  
of Secondary Teachers has repeated  
its request to the County Council to  
repeal the scheme of Secondary and Uni-  
versity Scholarships. The Council has dis-  
played no desire to comply, and entertain-  
ing the view that in the past the ratepayer  
has been merely subsidising for the profes-  
sion. There is no denying that was so  
as one Councillor said, nothing  
being done for agricultural re-  
development by the students. There is a good  
reason to be said for that viewpoint, as in an  
agricultural country something,  
a great lot, should be done to  
arouse greater interest in the land. We  
are hopelessly in arrear of Continental  
countries, and even industrial Britain  
in this respect. One never hears over  
the air a talk from Radio Eireann  
concerning care and treatment of, say, pas-  
ture. He must tune into the B.B.C. News  
for that once a week.
