tal being a feeder for another, and he saw no reason why any differentiation should be made as between Cork and Limerick. The Minister should be asked to send down a Medical Inspector to go into the entire matter with the Committee. So far they had been groping in the dark, but he thought that the services of a trained man, with knowledge and experience of their problem, would assist them greatly, and would be a very wise move.

Mr. J. McCormack pointed out that the proposed Regional Hospital was intended for the poor of the city and county. They were not concerned with other people or things, and if they were satisfied that 250 beds were sufficient to accommodate poor people they should go ahead and try to prevent further delays.

At this stage the Chairman announced that the meeting was private, and asked the Press representatives present to refrain from taking further notes.

AN APPEAL

"I make an earnest appeal to parents, to teachers in all schools and to all those in charge of groups of young people, to make themselves familiar with the Savings Movement, which has such immense potentialities, and so ensure that thrift teaching will take its proper place in the educational and social advancement of our people."

Most Rev. Dr. Lyons,
Bishop of Kilmore,
at Cavan, March, 1938.

Savings Associations now operate in over 3,650 National Schools, Technical Institutes, Boy Scout and Girl Guide groups and other juvenile organisations.

Full particulars may be had on application to the Secretary, Central Savings Committee, Dublin, C.2 (no postage needed).

. . . WRITE TO-DAY . . .

The Justice ordered the defendant to come up for judgment if called on within a period of six months.

FARMER'S DEATH.

Inquest Proceedings

At Croom Hospital on Friday 23rd inst., Dr. Clery, Coroner, opened an inquest touching the death of Michael Casey, Cloughakeating, Patrickswell, who succumbed on that morning to injuries sustained by being knocked down by a car.

Supt. E. Cooney, Adare, conducted the enquiry, and Mr. D. J. O'Maley, solicitor, Limerick, represented the next-of-kin of the deceased.

Supt. Cooney intimated that he did not intend to give any evidence other than evidence of identification and medical evidence, as papers were being sent to the Attorney-General for his instructions.

WIFE'S EVIDENCE.

Mrs. Christina Casey, wife of the deceased, giving evidence of identification, stated her husband was a farmer, and was 50 years of age. On Wednesday last the deceased left the house and went in the direction of Patrickswell, carrying a barrel of water. When he returned he remained indoors until 5.30 p.m., when he went out on a bicycle to Patrickswell to feed the calves at Faha, where he had grazing taken. He was in good health, and had no drink taken. Later, witness saw her husband in Croom aCounty Hospital, where he was unconscious.

MANY INJURIES.

Dr. James Hogan stated the deceased man was unconscious when admitted to the hospital on Wednesday, and died on Friday. The man was organically sound, and on examination it was found that he had injuries around the left eye, with sub-conjunctival haemorrhage, laceration of the face and legs. He was suffering from fracture of the base of the skull, and never regained consciousness. Death, in witness's opinion, was due to shock and haemorrhage, following fracture of the base of the skull, as a result of violence. The injuries could have been caused by being struck by some object such as a motor car.

The Coroner then adjourned the inquest indefinitely.
