NO CHANGE

Motor Taxation in Limerick

On enquiry at the Motor Registration Department, at the Town Hall, it was learned that, contrary to expectation, there has been practically no change in the number of motor vehicles taxed in the city for the ensuing taxation period.

Mr. Jas. Doyle, Registration Officer, stated that the number of cars taxed the beginning of the year was practically the same as last year. He had as yet no accurate figures, but when these were available there might be an insignificant decrease.

The United States has bought furs worth 120,000,000 kroner (about £7,000,000) from Soviet Russia. Norwegian ships have been chartered to transport the furs, the first consignment of which, valued at 12 to 15 million kroner, is already on the way to America.
