AIR RAID VICTIM

EAST LIMERICK MAN KILLED

The death took place, as a result of an
air raid on Portsmouth, on Monday of
Mr. William J. Deer, a native of Doon,
Co. Limerick. Deceased was senior clerk
at Admiralty House, Cobh, until 1922,
when he was sent to various dockyards
in England and Malta. He became secre-
tary to the captain of Portsmouth dock-
yards about a year ago. He married Miss
Esther Higgins, Ballyleary, Cobh, and
leaves nine children.

LACK OF COHESION

In Irish town life there had always
been a singular lack of cohesion and
absence of organised and collective
effort, said Mr. P. O'Connell, M.Sc.,
PhD., at the Muintir na Tire Conference
in Virginia. In advocating parochial
councils he deplored the modern ten-
dency towards excessive centralisation
which was exercising a detrimental and
unbalanced influence on the national
development of the towns.

DRILL IS NECESSARY

If at least breathing exercises were
the rule of every school much incorrect
posture and many catarrhal conditions
would disappear with immense benefit to
the children, states a report of the Dublin
Medical Officer of Health. He further
comments on the lack of organised
games and physical drill, and adds that
