any rate that the merit of the place are  
recognised outside. It is a pity that the  
swimming pool could not have been  
erected in time "to catch the ball on the  
hop," so to speak. The Fynes Develop-  
ment Association is doing everything it  
can to further the project but owing to  
the disturbed times there seems to be no  
hope for it this year.

Group B.

The officers of Group B of the L.C.F.  
are—Mr. P. Carney, Group Leader;  
Messrs. J. Enright, J. Moran, H. M. V.  
O'Brien, Section Leaders; J. Callaghan,  
P. Jackson and F. McCarthy, Squad  
Leaders.

## KILMALLOCK NOTES

(From Our Correspondent).

Regretted Death.

The death of Mrs. John O'Driscoll,  
Mount Fox, Kilmallock, was very much  
regretted and the deepest sympathy has  
been extended to the family and re-  
latives on their bereavement. She was  
aunt of Rev. M. O'Sullivan, Los Ange-  
les, and Rev. P. O'Sullivan, Preston.  
The attendance at the removal of the  
remains to SS. Peter and Paul's Church  
was of considerable dimensions.

The Funeral.

The funeral to Kilmallock Cemetery  
after Requiem Mass was large and re-  
presentative. The clergy present were:  
Right Rev. Dean Mulcahy, P.P., V.F.,  
Kilmallock; Very Rev. Canon O'Dwyer,  
P.P., St. Munchin's Limerick (cousin),  
Rev. E. Condon, C.C., Kilmallock, and  
Rev. M. McCarthy, C.C., Effin. Father  
O'Sullivan, Preston, was unable to at-  
tend.

Rumours.

It would be hard, indeed, to try to  
solve the riddle of the source of the  
many false alarms that have gone  
around this district recently. Some  
people, it seems, take a malicious plea-  
sure in starting the lie that is being  
added to as it travels until by the time  
it has reached the most remote parts it  
has assumed tremendous proportions,  
and why not, too, when so many have  
had a hand in its dissemination.

Prayers For Peace.

It is most edifying to see the response  
that the people are making in regard to  
the evening devotions in all the chur-  
ches for the great cause of peace. In  
the country parishes, where the church  
is often a considerable distance away, it  
has been remarked that the zeal shown  
in coming to the devotions is most ad-  
mirable.

The Crops.

The dry season has had an injurious  
effect on the potato crop, which means

Athea, with its learning popal  
fall behind hand in this respect  
there is a possibility for the  
hope that there may be via  
the services of these embryos  
very long. To wilfully blind  
such a possibility would be to  
cowardly.

Local Defence Corps.

While the response for arm-  
teer recruits in the district is  
all that could be desired, qui  
have come forward to join  
Security Defence Corps. A  
corps is now fully established  
and its members are funct  
highly satisfactory manner.  
tain obtuse and self-sufficient  
the public, it has become fa-  
jeer at the utility of this be-  
argument among those peo-  
they term the utter improbab-  
foreign foe attempting to la-  
aeroplane anywhere in the Ad-  
since there exists no inducen-  
ever for them to do so.

If Invasion Should Come.

According to military exper-  
a revelation to these Solome  
that potential invaders are ju-  
to land in the Athea locality  
other part of the country. If  
a few machine-gun nests est-  
the summit of Turn Hill and  
could hold up the advance of  
moving southwards to repel  
from the Kerry coast. The cr-  
to further ask of what use  
semi-equipped army be against  
forces, such as the German  
their break-through over Fri-  
we can provide plenty of tren-  
reception, of such armoured  
trenches which there will be  
over. If hostile troops atte-  
vance inland, even under the  
of scouting planes, their  
certain to be interrupted by  
bullets from every wood,  
hedgerow. No army corps, be-  
equipped, could for long wit-  
attrition. If invasion—or at-  
vasion—comes the army can  
to meet it. Fighting is in the  
if they are put to the test,  
will probably acquit themselves  
that will surprise the pessimis-
